The aim of this abstract-driven workshop is to make a significant contribution to the optimization of TB treatment, by bringing experts together and having them present and discuss the latest important scientific findings in the TB clinical pharmacology field. Additionally, scientific, regulatory or strategy issues that are highly relevant to the optimization of TB treatment will be exchanged and discussed. We look forward to seeing you in London!

**WHO SHOULD ATTEND?**

- Pharmacists/pharmacologists involved in clinical management of TB-infected patients
- Preclinical and clinical pharmacology researchers from academia and Industry
- PhD and PharmD students
- Representatives from regulatory or non-governmental organizations active in the TB-field
The treatment of Tuberculosis (TB) is becoming a challenge worldwide. All around the world experts in the field are involved in intensive research to be able to cope with the various concerns with regard to treatment.

The aim of this abstract-driven workshop is to make a significant contribution to the optimization of TB treatment, by bringing experts together and having them present and discuss the latest important scientific findings in the TB clinical pharmacology field. Additionally, scientific, regulatory or strategy issues that are highly relevant to the optimization of TB treatment will be exchanged and discussed.

Topics will include:
- Pharmacokinetics and pharmacodynamics of new TB drugs
- Pharmacokinetics and pharmacodynamics of approved TB drugs
- Pharmacokinetic – pharmacodynamic modeling
- Drug-drug and drug-disease interactions
- New TB drug development tools
- New developments in pediatric TB
- Interactions between TB and HIV drugs
- Treatment of MDR- and XDR-TB

Join us at the 12th Edition of:
International Workshop on Clinical Pharmacology of Tuberculosis Drugs

Our workshop involves a strong community of clinical pharmacologists and other healthcare professionals working in the TB-field. Also, the workshop provides an independent scientific platform to discuss controversial topics and views.

Abstract submission is open! Submit your abstract before 19 July 2019!
